## Harold L. Arnold Jr., Ph.D.

"There is no greater privilege or higher calling than partnering with others to achieve their inner potential"

- Dr. Harold L. Arnold, Jr.

*Empowering individuals, organizations, and communities to find faith in family*

*Most people spend every day searching for connections that extend their reach, commitments that nurture them, and community that welcomes their gifts. In a word, they want true "FAMILY".*

Dr. Harold L. Arnold, Jr., founder of Discovering Family International, is a social and organizational psychologist who specializes in developing family-focused culture in homes, places of worship, and business settings. Using his own model for family-and-faith integration, Harold challenges audiences to become better stewards of all the relationships to which God holds them accountable.

With his holistic view of family that extends from the bedroom to the boardroom, Harold demonstrates how successful homes, religious organizations, community groups, and businesses cultivate relationships and leaders defined by an organic sense of shared identity.

Armed with biblical principles, psychological insights, and entertaining stories, Harold guides his audiences on a journey to discover faith and purpose through committed relationships.

In addition to his commitment to relationship education, Harold also works with organizations to develop customized family-based programming, family outreach initiatives, and relationship counseling services.

With all of his accomplishments, Harold is most proud of his marriage of more than twenty years to his college sweetheart, Dalia, and their two wonderful children, Quilan and Kyrsten. The Arnold family resides in the Philadelphia metropolitan area.

### BIOGRAPHY

**Education:** Harold earned doctorate and Master's degrees from Temple University in Social and Organizational Psychology. Harold also holds a Master's degree in Marriage and Family Therapy from Fuller Theological Seminary.

**Service:** Harold served on the editorial board of the Journal of Social Issues, as Director of Christian Education for a large multi-cultural ministry, and as adjunct faculty for a Christian university in the Philadelphia metropolitan area.

**Writer:** Harold contributes articles to Focus on the Family's "Marriage and Relationships" online section.
